

# Vehicle Accident Reconstruction

Vehicle accidents happen every day. In many cases, they result in serious bodily injury, permanent disability, loss of life, or property damage. Envista's experienced vehicle accident reconstructionists are industry-recognized experts in evaluating all types of vehicle accidents.

Envista's global experts utilize the most advanced technology in the industry as part of the reconstruction process. Our team is trusted with all stages of the investigation, from initial site inspection to delivering expert witness testimony. We are dedicated to accurately, clearly, and cost-effectively documenting and presenting the facts.

## We Investigate Impacts, Crashes and Collisions Related to:

- » Commercial Trucking
- » Heavy Equipment/Construction
- » Motorcycles
- » Passenger Vehicles
- » Pedestrians
- » Roadside Objects
- » Tire and Component Failures
- » Vehicles

Send new assignments to:
